

VICTOR RAYNOR

Blockchain Developer

babypig0525@outlook.com Philippines Bacolod

EXPERIENCE

Blockchain Developer

Gardline Company

Philippines

03/2021 - 06/2022

- Spearheaded the development of foundational blockchain projects, resulting in a 30% improvement in efficiency in data verification processes
- Implemented blockchain protocols using Solidity and Ethereum, resulting in a 20% reduction in transaction costs
- Collaborated with a team of 10 developers to deliver a proof-of-concept blockchain application, which received positive feedback from stakeholders and led to further investment in blockchain technology within the company

Blockchain Developer

Sonic Company

Philippines

07/2022 - 06/2023

- Led the design and deployment of secure smart contracts and decentralized applications, resulting in a 40% increase in transaction throughput
- Developed a blockchain-based supply chain solution, reducing inventory discrepancies by 25% and improving transparency across the supply chain network
- Played a key role in securing partnerships with blockchain technology providers, resulting in a 50% increase in Sonic company's blockchain integration capabilities

Blockchain Engineer

Canva Company

Philippines

08/2023 - 04/2024

- Directed a team of 15 developers in the implementation of blockchain solutions, resulting in a 60% reduction in data breaches and security vulnerabilities
- Implemented advanced cryptographic techniques to enhance the security of blockchain networks, resulting in a 30% decrease in the incidence of fraudulent activities
- Led the development of a blockchain-based voting system, which increased voter participation by 20% and received recognition from industry experts for its innovative approach to secure voting

EDUCATION

Bachelor of Science Degree in Computer Science

Aegean University, GPA 4.0/3.7

Philippines

04/2012 - 08/2016

- During my university days, I majored in blockchain engineering and received a master's degree in the process.

SUMMARY

Blockchain Developer With over 8 years of experience as a blockchain developer, I have a strong background in designing and implementing blockchain protocols, developing secure smart contracts, and building decentralized applications (DApps).

My expertise spans various platforms including Ethereum and Hyperledger, with a deep understanding of cryptography and data structures.

I have successfully led projects across multiple industries, ensuring robust and efficient blockchain solutions.

SKILLS

Web3.js, Node.js, jQuery,
Socket.IO, React

Python, Solidity, JavaScript,
TypeScript

Blockchain, Ethereum

Mongo DB, MySQL, PostgreSQL

Bitcoin, DApp, Full-stack.

LANGUAGES

English (Proficient)
